Chicago, Dec. 20.—Formal notice that the defense will present a motion in the near future to have Judge Carpenter Instruct the jury to return a verdict finding the ten Chicago meat packers charged with criminal violation of the Sherman anti-trust law not guilty, because United States District Attorney James H. Wilkerson failed to make out a case in his opening statement to the jury, was given today by Attorney Levy Mayer at the opening of the afternoon session of the trial.

At the same time Attorney Mayer moved that counts two and three of the indictment be dismissed because they do not mention the National Packing company, which the government contends was the instrument used to fix the prices of meat, and to have the jury instructed to disregard certain other allegations made by District Atterney Wilkerson as not coming within the three veer period covered. terney Wilkerson as not coming within the three year period covered in the The action of the defense was a sur-

Conscience Versus Art. Shortly after Tennyson's poem "Th Vision of Sin" appeared an eminent mathematician sent the poet a letter that can like this:

iress as No. 3517 North Tenth street

"Dear Sir-1 find in a recent poem of yours, entitled 'The Vision of Sin. the following unwarranted statement: Every moment dies a man, and every moment one is born.' I need hardly point out that this calculation, if cor rect, would tend to keep the sum total of the world's population in a state of perpetual equipoise, whereas it is an established fact that the said popula tion is constantly on the increase. I would therefore suggest that in the next edition of this poem the erroneous calculation to which I refer should be corrected as follows: 'Every moment dies a man, and one and a sixteenth is born.' I may add that the exact fig ures are 1:167, but something must, of course, be conceded to the laws of rhythm."
